## DAY 1

---

Every project has a purpose.

*Q1 . What's your purpose?*

*Q2. How are you dealing a real life problem with this project ?*

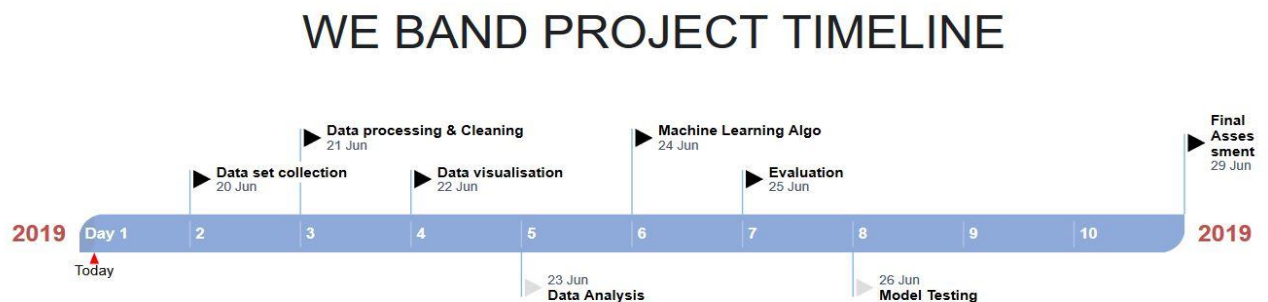

*Q3. What are your plans to complete it on time?*

*Q4. Can you mention the steps in which you're going to work to achieve this task?*

### **TASK 1:**

Create a project pictorial timeline of all the steps and dates how you are going to deal with this problem in limited number of days. What do you want to put first Face detection or learning about trackers.

The way you will design your timeline will make your project unique. Additionally put it in a pictorial form , for example:

### **SUBMISSIONS GUIDELINES**

- 1) It's not necessary to submit the task that have been provided, submissions will only be for feedback.
- 2) If I don't receive your each day's task submission it'll be difficult to evaluate.
- 3) To submit your task create a directory with your name and post the solution to it.
- 4) Copy-paste will not be tolerated.
